artist run space
Schleifmühlgasse 12-14

// about

Schleifmühlgasse 12-14, contemporary artist collective* Vienna, established in April 2009 by a group of artists around the curator Denise Parizek, as a platform for different kind of contemporary art, based in Vienna and working internationally. Its work is inspired by the power of art to enrich people's experience and their engagement with the environment. It produces permanent and temporary art commissions, collaborations and interventions, based on visionary strategies and artist selection procedures.

Schleifmühlgasse 12-14's approach is creative and lateral; meanwhile focusing on art, it also involves other disciplines including architecture, landscape, poetry, choreography, design, fashion, music, performances and film. The team of Schleifmühlgasse 12-14 has 11 years of experience of providing art consultancy services with integrity, transparency, flair and commitment.

Using our unique combination of skills, expertise and resources, we can deliver the transformational power of art anywhere in the world. We therefore continuously monitor and research contemporary artists and have unmatched database of talent to call on.
